WELCOME TO

The Fortune Protocol G

*— A Decentralized Wealth Ecosystem,
Where Participation Brings Prosperity*

GLOBAL CHALLENGES OF THE MODERN WORLD

The world today is facing unprecedented economic and social challenges.

- *Rising global economic uncertainty affecting markets and livelihoods*
- *Increasing job insecurity and mass layoffs across industries*
- *Persistent inflation reducing purchasing power of common people*
- *Economic slowdowns and recession impacting businesses worldwide*
- *Growing unemployment and financial instability in many nations*
- *Rising poverty and widening wealth inequality*
- *Widespread fear, uncertainty and doubt (FUD) about financial security and the future*

Millions of people across the world are searching for reliable ways to create financial stability and independence.

THE SOLUTION WE PROVIDE

Fortune Protocol – A Decentralized Opportunity for the Future

Through blockchain technology and decentralized participation, we aim to provide:

- *Sustainable opportunities for global participants.*
- *Decentralized participation without centralized control.*
- *Low entry barrier enabling anyone to start.*
- *Transparent blockchain-based operations.*
- *A community-driven ecosystem built on trust and collaboration.*

The Fortune Protocol is designed to empower individuals to participate in the digital economy and build prosperity together.

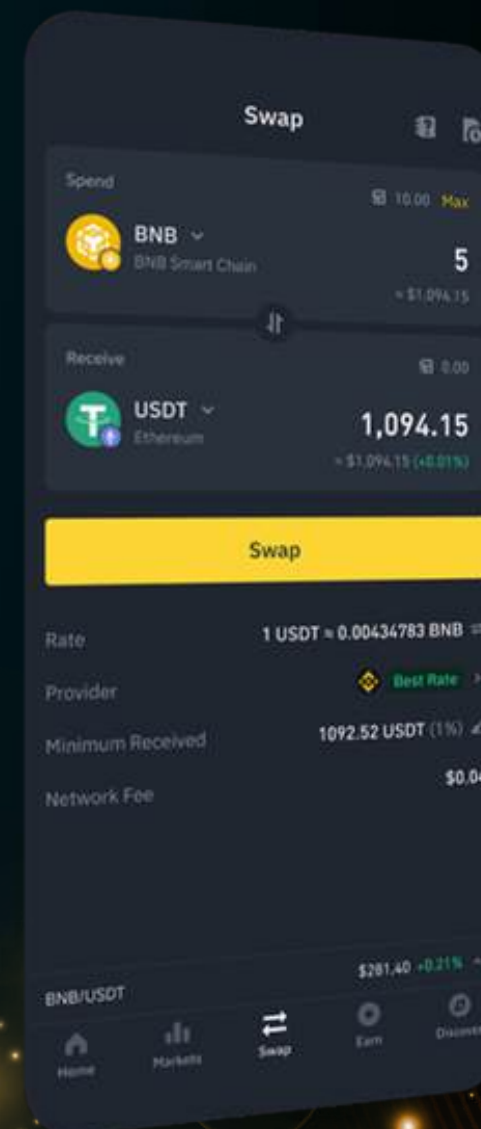

WHO WE ARE

We are a team of professionals with expertise in blockchain technology, decentralized finance (DeFi), smart contracts, and the cryptocurrency ecosystem.

Together, we support trading, DeFi, and decentralized applications.

Binance Smart Chain (BSC): Smart contracts and dApps with low fees.

BNB Token: Used for fees, staking, and utility within the Binance ecosystem.

VISION & MISSION

Our Mission

To build a transparent, secure, and sustainable blockchain-powered ecosystem that enables individuals across the world to participate in fair, scalable, and communitydriven opportunities for economic growth.

Our Vision

To empower people globally through a sustainable digital economic ecosystem, where individuals can participate, collaborate, and create prosperity in the evolving decentralized world.

WHY CHOOSE US ?

Fortune Protocol is designed to provide a modern, transparent, and decentralized ecosystem that enables individuals to participate with confidence and ease.

Key Advantages :

- Low Entry Barrier – Start with a minimal initial participation cost*
- Minimal Operational Expenses – No office, infrastructure, or traditional overhead costs*
- 100% Blockchain-Based Protocol – Powered by decentralized blockchain technology*
- Transparent & Trustless System – Transactions and operations are fully verifiable on-chain*
- Fully Automated Mechanism – Smart contracts execute processes automatically*
- Decentralized Architecture – No centralized control or manual intervention*
- Security Audited Framework – Built with strong security standards*
- Secure & Reliable Infrastructure – Designed for safety, transparency, and long-term sustainability*

WHY WE CHOSE BINANCE SMART CHAIN?

Fortune Protocol is built on Binance Smart Chain (BSC) to leverage a blockchain infrastructure that offers efficiency, accessibility, and scalability for global users

Key Advantages :

Low Transaction Costs

Minimal gas fees make participation affordable for users worldwide

High Liquidity & User Base

- *Huge user base*
- *Easy access to liquidity*
- *Strong market support*

Strong Ecosystem Adoption

Widely used and supported by developers, projects, and global communities

EVM Compatibility – Seamlessly supports Ethereum Virtual Machine (EVM) standards

USDC vs USDT

WHY SMART INVESTORS PREFER USDC

VS

1

TRANSPARENCY MATTERS

- ✓ USDC Fully Audited Reserves
 - ✗ USDT Limited Transparency
- Know where your money is backed.*

2

STRONG REGULATION

- ✓ USDC Regulated by US Authorities
 - ✗ USDT Offshore Structure
- Security comes from compliance.*

3

BACKING QUALITY

- ✓ USDC Cash & US Treasury Bonds
 - ✗ USDT Mixed & Less Clear Assets
- Better assets = safer stablecoin.*

4

TRUST FACTOR

- ✓ USDC Backed by Circle & Coinbase
 - ✗ USDT Past Controversies
- Reputation builds confidence.*

5

INSTITUTIONAL PREFERENCE

- ✓ USDC Used by Institutions & DeFi
 - ✗ USDT Mostly Retail & Trading
- Big money chooses stability.*

NOT ALL STABLECOINS ARE EQUAL ⚠
CHOOSE STABILITY. CHOOSE TRANSPARENCY.

WHAT IS DEFI & LIQUIDITY POOL

Decentralized Finance(DeFi)

Decentralized Finance (DeFi) refers to a blockchain-based financial ecosystem that operates without traditional intermediaries such as banks or centralized institutions.

It enables individuals to access financial services directly through smart contracts, ensuring transparency, automation, and decentralized participation

Liquidity Pool

A Liquidity Pool is a smart contract that holds a pool of digital assets, typically a pair of tokens or cryptocurrencies, used to facilitate decentralized trading and transactions.

Participants who contribute assets to these pools, known as Liquidity Providers, help maintain the liquidity of the system and may earn transaction fees or rewards generated through platform activity.

HOW ALL BUSINESSES WORK ?

Every business, traditional or modern, is driven by people's participation.

When people engage by buying products, using services, or participating in activities, funds flow into the ecosystem. This creates value, demand, and circulation of capital, which drives business growth and profitability. In simple terms, participation fuels the entire business ecosystem. The Fortune Protocol business model is exactly the same

HOW TO START ?

To begin your journey with Fortune Protocol, you first need a Web3 Wallet. A Web3 wallet allows you to securely store digital assets and interact with blockchain-based applications (DApps).

Supported Web3 Wallets :

Meta Mask

Bitget Token

Token Pocket

Safe Pal

HOW TO PARTICIPATE ?

To participate in Fortune Protocol, simply follow these steps:

1. Referral Registration

Register using the referral link provided by your introducer or sponsor.

2. Connect Your Web3 Wallet

Use a supported Web3 wallet to connect securely with the platform.

3. Confirm Your Participation

Complete the transaction through your wallet and become part of the Fortune Protocol ecosystem.

FORTUNE RESERVE SAFEGUARD PROTOCOL

To strengthen the sustainability and long-term security of the ecosystem, Fortune Protocol maintains a dedicated protection reserve smart contract designed to support the community in case of unforeseen circumstances.

Purpose of the Reserve :

This reserve acts as a community protection mechanism, ensuring that funds are available to provide support or compensation to participants if any unexpected situation arises in the future.

Fund Allocation Mechanism :

The reserve is automatically funded through smart contract mechanisms:

- 1% of every deposit is allocated to the Safeguard Reserve.
- 1% of every withdrawal is also allocated to the reserve.

These allocations are executed automatically through the main protocol smart contract.

PARTICIPATION TERMS

Participation Terms & Platform Policies :-

1. Minimum Withdrawal

The minimum withdrawal amount is \$10.

2. Withdrawal Charges

Every withdrawal from the platform will be subject to a 6% withdrawal fee.

3. Principal Withdrawal

Participants may withdraw their principal amount within 30 days from the deposit date.

However, 25% deduction will apply on the remaining principal amount.

Calculation Rule

Any rewards already earned (1% or 1.3%) will first be deducted from the original deposit amount. The remaining amount will be considered as the net principal, on which 25% deduction will apply.

EXAMPLE

If a participant deposits \$100 and has already earned \$15 in rewards:

Remaining principal = \$100 – \$15 = \$85

Deduction = 25% of \$85

The remaining amount will then be processed for withdrawal.

Additionally, 6% withdrawal fee will also apply.

PARTICIPATION TERMS

4. Maximum Earning Limit

The maximum earning potential of each participant is determined based on their rank achievement level within the system :

* Participants with No Rank / Rank 1 (Explorer) :

Can earn up to 2X (200%) of their self-deposit amount.

* Participants with Rank 2 to Rank 4 :

Can earn up to 3X (300%) of their self-deposit amount.

* Participants with Rank 5 and Above :

Can earn up to 4X (400%) of their self-deposit amount.

5. Daily Earning Cap

* The maximum daily earning limit is equal to the participant's self-deposit amount.

* Any earnings exceeding this daily cap will be automatically flushed out by the system.

6. Reinvestment

* The minimum reinvestment amount is \$10.

* On every reinvestment 50% level bonus will be distributed to the upliners as per the compensation structure.
